

W4ABC

STONE MOUNTAIN HAMFEST

and ARRL  State Convention

Just a few quick updates about the November 4th and 5th HamFest.

1st. The normal parking lot we have used for years will be closed for Bus Training.

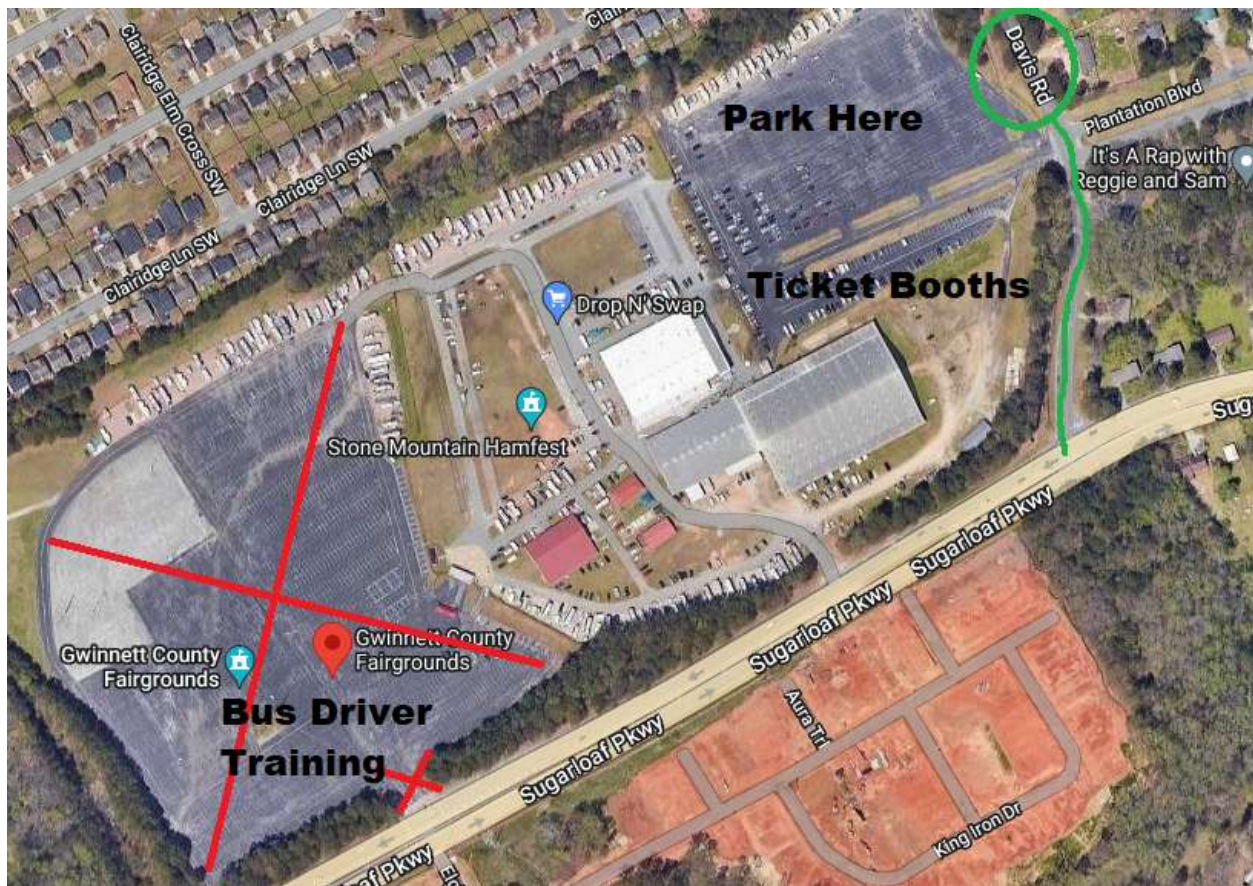

Vendors will use the same Sugarloaf Parkway gate they have used for years.

All others are to use the Davis Road entrance right off of Sugarloaf Parkway.

Here is a Google map to the gates on Davis Road.

<https://maps.app.goo.gl/XyFdjPC6CjTng6xq5>

There is a huge Fair Grounds sign on the corner of Sugarloaf Pkwy and Davis Rd. (see map).

The Ticket Booths are really close to the Exhibit Hall (see above photo).

2nd The HamFest Build-A-Thon is full

All 10 seats are filled and we have folks lined up to take one of the seats if somebody is a no-show...

3rd Forums and Workshops

I need Sunday Guest Speakers for the Forums and Workshops. I'm getting plenty of topic requests but no names/calls of who I should ask to present the below topic requests.

Antenna Analyzers versus VSWR Meters
Antenna Modeling Software
Arduino Programmable Microcontroller
Basic HF Antennas and SWR
Circuit Board Layout
Computer Logging, tell me about my options
Drones and the FAA
GA QSO Party
Introduction to Contesting
Introduction to SDR Radio, Which one should I get
Lightning Protection and Grounding
Nano VNA (Vector Network Analyzer)
Portable Operations
Radio Programming, DMR, D-Star, Fusion, FM
Satellites, Getting Started
Selecting Your First Radio
Test Equipment for the Ham Shack
The Southeastern Repeater Association (SERA)
Weak Signal Propagation Reporter (WSPR)
